Our Services

Live-in Care Plans

Live-In care services are available in the home 24 hours a day, and are available to assist morning or night. Live-In service 7 days a week is provided with a primary CareGiver and back-up CareGivers. The primary CareGiver provides care for 4-5 days a week, and the back-up CareGivers take over for the remainder of the week.

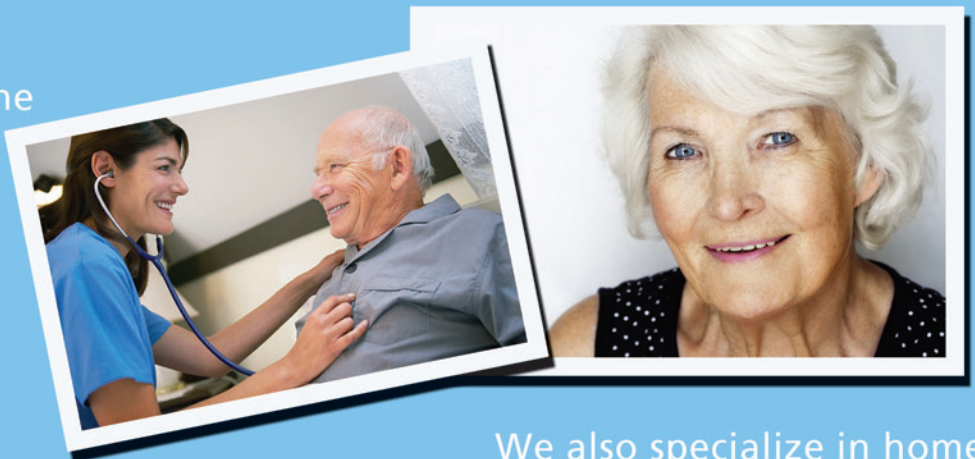

Live-in CareGivers maintain their own separate, permanent residence. They are permitted to reside at the Patient's premises only during their assigned days and nights, and they must leave the Patient's premises with their belongings on their days off. They are strictly forbidden from using the Patient's property, such as phone, television or car, for their own, personal use. Live-in CareGivers are NOT permitted to receive visitors while providing live-in care.

Hourly Care Plans

Hourly care services are available for all your needs. We can design a plan of care for night hours, weekends, transportation, meal preparation or doctor appointments. Medi CareGivers will fulfill your specific care needs with flexible service whenever and wherever you need it.

We specialize in home healthcare services for the following senior groups:

- Alzheimer's Disease
- Parkinson's Disease
- Cancer Recovery
- Hospital Stays
- Rehabilitation Care
- Orthopedic Care
- Hospice Care
- Stroke
- Disabilities

We also specialize in home healthcare services for the following pediatric and general groups:

Our Care Professionals

Medi CareGivers care professionals come from a wide array of healthcare experience.

We staff Registered Nurses(RNs), Licensed Practical Nurses(LPNs), Certified Nurse Assistants(CNAs), and Personal Care Aides(PCAs). We perform stringent hiring steps including criminal background checks, DMV/License Records, and Drug Testing to ensure we hire the very best care professionals to provide you the very best care.

- Premature infant
- Multiple birth assistance

- Automobile accident recovery
- Worker compensation injury

Specialized Care Services.

Our Care Plans

Medi CareGivers is dedicated to providing exceptional, cost effective, family focused care for your loved one. Our goal is to meet each Patient's medical and personal needs in the nurturing environment of their home, while minimizing the impact of the Patient's condition on the family. Medi CareGivers provides the following services and more - all tailored to meet your individual needs:

Companionship and Sitter Services

Companionship and Sitter Services promote social interaction and emotional reassurance, provide assistance with completing activities and appointments outside of the home and ensure the safety and security of the Patient. These services often relieve boredom, anxiety and depression. Our CareGivers provide these services under the supervision and direction of a Nurse Manager.

Duties may include services similar to the following:

- Offer companionship and conversation
- Monitor diet and eating
- Assist with evening and tuck-in
- Stimulate mental awareness
- Answer the door
- Reminisce about the past
- Assist with clothing selection
- Care for houseplants
- Provide reminders for appointments
- Supervise home maintenance
- Prepare grocery lists and shop
- Mail bills and letters
- Visit neighbors and friends
- Record family history
- Pick up prescriptions
- Accompany to lunch or dinner
- Escort to religious services

Personal Care Services

CNAs and PCAs provide personal care services. These services are intended to enable Patients to remain safely and comfortably in their residence.

All personal care services are managed and supervised by a Nurse Manager.

Duties may include services similar to the following:

- Assist with Eating, Grooming, Dressing, Bathing, Incontinence, Cognitive Impairment and Mobility
- Provide status reports to family
- Provide medication reminders
- Assist with grooming and hygiene
- Monitor vital signs and medication
- Assist with proper body movement and daily exercise
- Assist with going to appointments
- Meal preparation to maintain proper diet
- Perform day-to-day cleaning and laundry

The Care You Need.

Skilled Nursing

RNs and LPNs provide skilled nursing care, offering similar services as in the hospital, nursing home, or adult day center. Doctors' orders are required for skilled nursing shifts.

Duties may include services similar to the following:

- Assess blood pressure, pulse and respiratory status
- Administer and monitor medication regime
- Monitor nutrition, hydration, bowel and bladder functions
- Diabetic teaching – check glucose levels, administer insulin
- Wound care – dressing changes
- Catheter care
- Colostomy/ileostomy care
- Tube feedings
- Intravenous Medications

You Select the CareGiver

Medi CareGivers will provide you with an in-home assessment to identify your unique requirements. Once we have gathered this information, we evaluate our care professionals to determine those who are best able to provide your specific needs. This ensures you receive the very best of care. If time permits, we will set up two CareGiver interviews so that you may select your primary CareGiver prior to beginning care.
